1. A tabulation of road bridge construction projects in Land Brandenburg for the fiscal year 1951 was obtained. The projects were approved by the Directorate General, Motor Traffic and Roads. *

* [redacted] Comment. For tabulation, see Annex. The bridges marked with an asterisk in the Annex were already included in the 1950 construction program. [redacted]

The tabulation does not reveal the type of the construction work. However, it is believed that the projects concern the construction of destroyed bridges, the replacement of temporary bridges by permanent structures, or the **reinforcement** of existing bridges to increase their carrying capacity to 60 tons in compliance with a Soviet order. The Oder bridge project in Frankfurt/Oder is the reconstruction of the destroyed bridge.
